

Project Unify PoC 4/1/2020

Action Items:

- We need project plan - to make progress on use case
 - Agree upon use case
 - Integrate and leverage Gravity work into use case
 - Set calendar up for firm to do's by May 1 InterOpathon
- Post new use case/"story" on Project Unify group on Hub
 - Expand story
 - Might need 1 or 2 new personas to show SDoH interfaces
 - Must be explicitly cross domain
 - courts, child welfare, health care, human services, housing, medicaid, CPS

Discussion:

- Purpose of bi weekly is for feedback from wider group
 - Send out agenda prior to call
 - Split meeting between general and technical, technical conversation second half of meeting
 - Each meeting someone presents with question or clear point
 - Schedule smaller technical group sessions between calls

- We need focus to be in the context of building interoperable model
 - May 1, 2020 we get to present Project Unify
 - Define actual use case
 - Build PoC
 - Once build PoC then we can build on

- Future building blocks once PoC is complete
 - There should always be a test environment
 - Marklogic, Interoperability Land
 - We must have static version and test harness

- We need a project manager(s)
